Poltys Inc.

POLTYS DCC EX AND SURVEILLANCE CAMERAS

How Does DCC EX Improve My Facility?

- **Increased Mobility**: Caregivers can receive alerts no matter where they are in your building
- **Shorter wait times**: Use reports to improve caregiver response time
- **Proactive Monitoring**: Administrators and/or owners can be notified by email or text message if a call for help is not answered
- **Atmosphere**: No noisy bells means a more home-like environment for residents
- **Market Your Community**: Show incoming families how good your caregiving services are

Direct Care Connect DCC™ is an automated alerting system that integrates life safety, security and environmental controls, dispatching alarms into detailed notifications for delivery to designated alerted devices.

Appropriate responses are initiated according to predefined alerting and escalation protocols to make sure managers, supervisors and security guards get the information they need to respond.

By giving DCC EX the "eyes" through provided Hi-tech CCTV cameras and DCare EX, Managers and Supervisors can see an event as it is unfolding to better inform response and resources in case of emergencies.

SURVEILLANCE CAMERA KEY FEATURES

- IR cut filter enables day and night functionality
- Camera pivots horizontally from 0 to 360° & vertically from 0 to 75°
- 0 to 360° rotation
- 3D-DNR

- Anti-flicker, heartbeat, mirror, password protection, privacy masking, and watermark
- Alarm triggers include motion detection, video tampering, and illegal login
- 100Mb self-adaptive Ethernet port

DCC EX TEXT AND AUDIO NOTIFICATION

The alarm notifications are sent to DECT phones, mobile devices or desktop phones as text messages and/ or voice calls, depending on alerted device capabilities.

Caregivers can select whether to accept or call back the resident just by pressing predefined buttons on the DECT phone keypad/ mobile device display or by saying simple speech commands like "OK" or "Call".

MOBILITY BY DCARE EX

The caregiver connects using a Employee PIN defined in DCC EX selects an escalation set (working zone) that serves on that day.

Voice announcements and text alarms are received by caregiver. Text alarms are simultaneously displayed and played back by caregiver mobile device.

Caregiver may accept or callback a predefined phone number by tapping specific buttons on the mobile device.
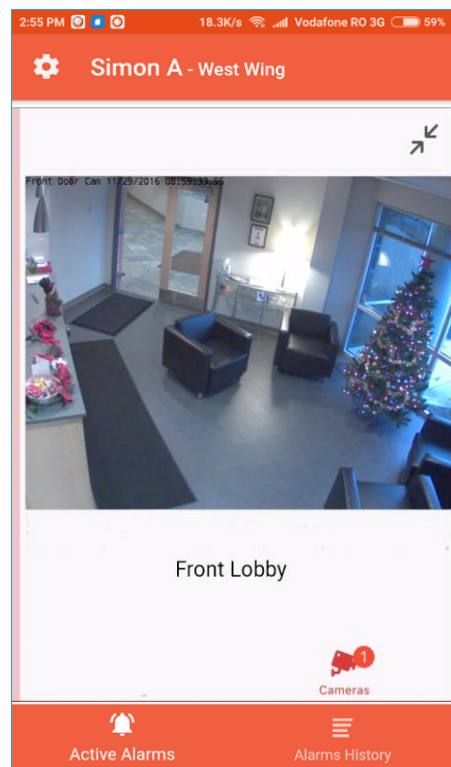

Once the alarm was cleared at the resident place the Caregiver can close it after the resident request was handled or it can further require assistance from Employees with other competences (Nurses, Doctors, Maintenance, etc).

DCC EX PROFESSIONAL REPORTS

DCC EX takes advantage of Microsoft Excel capabilities, helping you identify performance and workflow trends.
