- **Caregiver Zone Selector** - Caregivers can select their working zone at login time
- **Alarm Escalation** - unlimited levels
- **Alarm Monitoring** - Real-time
- **Powerful Reports** - MS Excel-based
- **Multi-PBX** - Native architecture support
- **Script Based Integration** - Easy to integrate new interfaces and devices using automation scripts
- **Product Licensing** - In the Cloud

FLAWLESS INTEGRATION

DCC EX directly integrates with Panasonic PBXs and DECTs, wireless sensors, industry-standard Nurse Call Systems, Fire Panels, Wandering Management Systems, and Keyless Entry Systems.

RESIDENT LOCATION TRACKING

DCC EX provides enhanced location support for mobile alarm devices within the wireless infrastructure.

Through vector mapping technology, DCC EX provides highly accurate location data which shows the proximity of the mobile wireless pendant to a fixed reference within the facility.

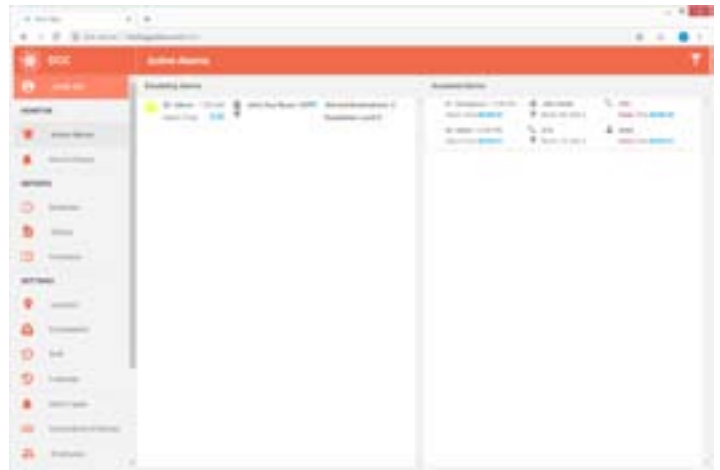

PROFESSIONAL REPORTS

DCC EX takes advantage of Microsoft Excel capabilities, helping you identify performance and workflow trends.

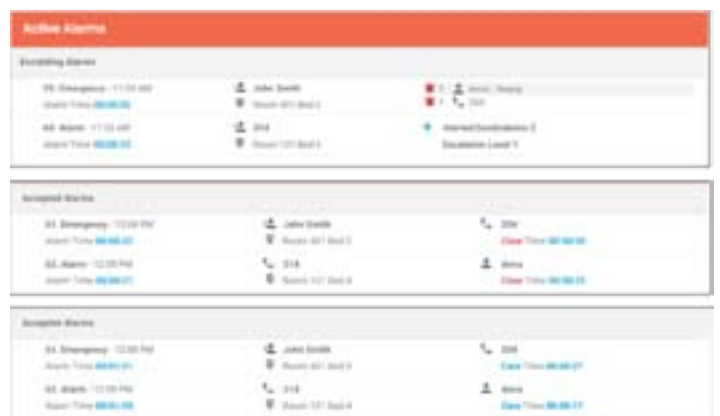

DCC EX Reports use enriched text and tables formatting for information highlights, along with a large variety of charts.

CALLBACK USING PANASONIC PBX

Caregivers can call back to a predefined phone number by DECT devices connected to the PBX, after receiving the alarm.
