

DCARE™ – RESPOND FASTER TO YOUR RESIDENT CALLS

How Does DCC Improve My Facility?

- **Increased Mobility:** Caregivers can receive alerts no matter where they are in your building
- **Shorter wait times:** Use reports to improve caregiver response time
- **Proactive Monitoring:** Administrators and owners can be notified by email or text message if a call for help is not answered
- **Atmosphere:** No noisy bells means a more home-like environment for residents
- **Market Your Community:** Show incoming families how good your caregiving services are

Polty's **DCare™ Messenger** is the mobile application and service of Direct Care Connect™ (DCC) that sends text alarms and Push-to-talk messages using the smartphone device.

DCC is designed around the needs of the residents to help them feel comfortable, secure and connected to both the staff and their loved ones, while improving the staff's productivity, efficiency and the facility's business bottom line.

DEDICATED ANDROID APPLICATION FOR MOBILITY

Poltys DCare™ Messenger is the application and service that sends Push-to-talk messages recorded at runtime and text alarms using the mobile device.

Push-to-talk messages and text alarms are received by mobile Caregivers predefined in DCC.

Text alarms are simultaneously displayed on the caregiver mobile device.

Poltys DCare™ Messenger application and service is compatible with Google Android smartphones and tablets.

TEXT NOTIFICATION AND RESPONSE

The alarm notifications are sent to mobile devices as text messages.

Caregivers can select whether to accept or call back the resident just by pressing predefined buttons on the mobile device display.

CALLBACK USING PSTN OR GSM

Poltys DCC allows caregivers to call back to a predefined phone number by mobile devices after the alarm was received.

CAREGIVER LOCATION TRACKING

DCC may track caregiver location (i.e. Android mobile phone running DCare™ Messenger) within the caregiving facility.

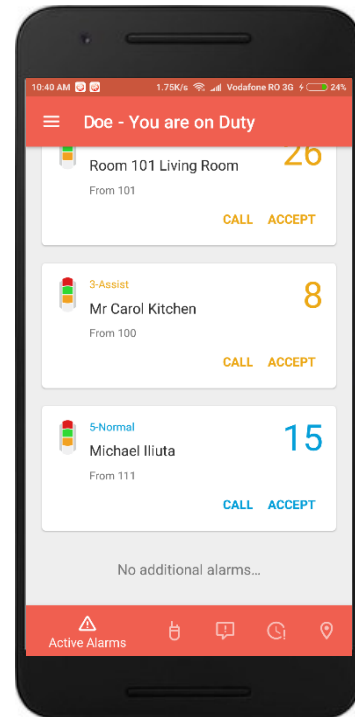

The locations are identified using Bluetooth Low Energy (BLE) beacon devices. Each room/ location is stuffed with one/ two BLE beacons.

EMAIL AND SMS NOTIFICATION

Poltys DCC send Emails or SMS texting to Supervisors to notify about not processed alarms.
